Fun and Learning At School

Dear Parents,

We welcome you and your little ones to the world of Mother's Pride.

This is a new beginning for the little ones as they step out of a secured home and adjust to a new routine. The month of July is filled with loads of exciting and enriching activities for our Prideens. The primary focus is to make them comfortable in their new environment and build their skills across all domains of development.

I feel special today, it's my birthday!

To have all the attention of his/her friends and teachers is the most precious birthday gift for a child. We will celebrate the birthday of June and July born children with cake, gifts and fun. Grandparents & parents are cordially invited for the party. Invitation card and details would be sent later.

ACTIVITIES OF THE MONTH

Physical Development

Gross Motor skills (i.e., skills involving large muscles) are developed by engaging children in various activities that enhance symmetrical bilateral coordination. Children will be engaged in activities like:

- Swinging the pendulum
- Catch and throw the ball
- Races and games like food hopscotch, food race etc.

Fine Motor skills (i.e., skills involving small muscles), children are involved in activities that enhance palm dexterity through actions such as gripping, pressing, squeezing and releasing. Children would be involved in activities like:

- Palm exercise
- Free play with clay
- Paper crushing

Language Development

This month focus is to develop readiness for language learning in children which includes listening and speaking. To build these skills the following activities would be done in the class:

- Sharing of children's experiences
- Opportunities for children to listen to others, speak and express themselves
- Exposure to language through stories, rhymes and videos:
 - Kilkari (Pg 2,7,27)
 - Clap Clap Clap your hands

Socio-Emotional Development

It is vital for children to feel secure in the presence of teachers and helper staff (didi's). The school and teachers do the following to ensure that children's natural separation anxiety is addressed:

- Help children spend time in various centres in the school.
- Give them opportunities to exercise choices, share and make mistakes.
- Interact with other children.

Cognitive Development

Children in this age group learn best through their senses. This month focus is to develop the sense of hearing by:

- Playing with sound box
- Finding direction of sound
- Exploring sounds of different objects
- Identify sounds of common objects and animals

Fitness Mantra

Healthy mind resides in a healthy body.

This month our kids will learn ASANAS in Yoga.

How to make a I-stance, thigh jogging, half turning exercise, self defense technique in Taek-won-do.
